

TRANSFER TIMEFRAMES

The information below summarizes college transfer practice relating to course. Where consideration for course transfer is available, all courses transferred must be equivalent in credit hours earned and content with those required by South College and a grade of C or better earned unless noted otherwise below. A minimum of 25% of any undergraduate program must be completed at South College; however, academic programs may require a greater percentage. See Catalog for information on requirements for each graduate program. At the current time, all graduate programs require completion of all required courses at South College except for the allowance of the potential for 3 courses (12 hours) of transfer credit for the MSN program.

Note: Where consideration for course transfer is available, some courses may be considered for course transfer past the published course timeframe to serve as elective course credit only.

** A course waiver may be granted if the student has earned 60 quarter hours or 40 semester hours with a cumulative grade point average of 3.00 or has earned a bachelor's degree at a previous institution. If the course waiver is granted, the student must select and complete a course substitute of equivalent credits to meet the credits required for the program of study.*

*** Refer to the Math Course Requirements in the Academic Catalog for information on exceptions that can be met to waive this course.*
